APPLICATION TO AMEND PERMIT
-CHANGE IN WATER USE TYPE OR LOCATION OF USE-

District To Complete

Permit No:

Well Registration:

QB Received:

Instructions: Complete form, type or print, submit along with an application fee of \$400.00 to the above address. Additional information or explanations may be attached. This form is used to request a change in water use type/purpose or location of water use for all wells within a permit. You must have a valid Operating Permit to use this form. This form cannot be used to change the type or location of water use for a Historic Use Permit. If you wish to change the type of location of water use for a Historic Use Permit, you must complete the form to withdraw your Historic Use Permit and apply for an Operating Permit. All information on the Well Registration is incorporated by reference into this Application to Amend Operating Permit - Change Water Use Type.

[ ] Irrigation (Agricultural) [ ] Irrigation (Commercial landscaping, etc.) [ ] Irrigation (Pond/ Lake Replenishment)
[ ] Other (explain) \_\_\_\_\_

NEW TYPE

Mark appropriate box with (x):

- [ ] Public Supply (PWS) ("Public Water System" means a system for the provision to the public of water for human consumption through pipes or other constructed conveyances, which includes all uses described under the definition for drinking water in 30 Texas Administrative Code, Section 290.38. Such a system must have at least 15 service connections or serve at least 25 individuals at least 60 days out of the year, or utilize 9,125,000 or more gallons of water per year. This term includes any collection, treatment, storage, and distribution facilities under the control of the operator of such system and used primarily in connection with such system, and any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system. Two or more systems with each having a potential to serve less than 15 connections or less than 25 individuals but owned by the same person, firm, or corporation and located on adjacent land will be considered a public water system when the total potential service connections in the combined systems are 15 or greater or if the total number of individuals served by the combined systems total 25 or greater at least 60 days out of the year, or utilize 9,125,000 or more gallons of water per year. Without excluding other meanings of the terms "individual" or "served," an individual shall be deemed to be served by a water system if he lives in, uses as his place of employment, or works in a place to which drinking water is supplied from the system.)
[ ] Public Supply (Does not meet PWS requirements & is not Commercial) [ ] Irrigation (Agricultural) \_\_\_\_\_
