B. The Board, by separate resolution, may provide that the District's bookkeeper, under direction from the Investment Officer(s), may withdraw or transfer funds from and to accounts of the District only in compliance with this Policy.

C. No fund groups shall be pooled for the purposes of investment.

Section 6.02. Policy of Securing Deposits of District Funds – Applicable to All Deposited District Funds.

A. The District recognizes that FDIC (or its successor) insurance is available for District funds deposited at any one Texas Financial Institution (including branch banks) only up to a maximum of \$250,000 (including accrued interest) for each of the following: (i) demand deposits, (ii) time and savings deposits, and (iii) deposits made pursuant to an indenture or pursuant to law in order to pay bondholders or noteholders. It is the policy of the District that all deposited funds in each of the District's accounts shall be insured by the FDIC, or its successor, and to the extent not insured, shall be secured by Collateral pledged to the extent of the fair market value of the principal amount deposited plus accrued interest.

B. If it is necessary for the District's depositories to pledge Collateral to secure the District's deposits, (1) the Collateral pledge agreement must be in writing, (2) the Collateral pledge

agreement must be approved by the depository's board of directors or loan committee, (3) the depository's approval of the Collateral pledge agreement must be reflected in the minutes of the meeting of the depository's board or loan committee approving the same, and (4) the Collateral pledge agreement must be kept in the official records of the depository. The depository must provide to the Investment Officer or District Officials written proof of the depository's approval of the pledge agreement as required herein in a form acceptable to the District. A signed or certified copy of the minutes of the meeting of the depository's board or loan committee reflecting the approval of the Collateral pledge agreement or other written documentation of such approval acceptable to the Investment Officer will be accepted. It is the preference of the Board that all requirements of this section be met prior to the deposit of any District funds in such financial institution when a pledge of Collateral is required; however, the Board recognizes that compliance with this preference might not be practicable due to time constraints for making a deposit. In such event, the Board directs the Investment Officer and District Officials to proceed diligently to have such agreement approved and documented to assure protection of the District's funds. If the decision is made to forego the protection of a collateral pledge agreement with any depository, the District bookkeeper shall be responsible for maintaining the balance of deposit(s) in such depository plus any accrued but unpaid interest at or below FDIC insurance levels.

C. Collateral pledged by a depository shall be held in safekeeping at an independent third party institution, and the District bookkeeper shall obtain safe-keeping receipts from the Texas financial institution or the safekeeping institution that reflect that Collateral as allowed by this investment Policy and in the amount required was pledged to the District. Principal and accrued interest on deposits in a financial institution shall not exceed the FDIC's, or its successor's, insurance limits or the market value of the Collateral pledged as security for the District's deposits. It shall be acceptable for the bookkeeper to periodically receive interest on deposits to be deposited to the credit of the District if needed to keep the amount of the funds under the insurance or Collateral limits. It is the preference of this Board that there be no sharing, splitting or co-tenancy of Collateral with other secured parties or entities; however, in the event that a depository cannot accommodate this preference due to the denominations of the securities to be pledged, the Board directs the Investment Officer and District Officials to obtain appropriate protections in the pledge agreement with the depository to assure that the Collateral is liquidated and the funds distributed appropriately to all parties with a security interest in such Collateral. The District bookkeeper shall monitor the pledged Collateral to assure that it is pledged only to the District, review the fair market value of the Collateral to ensure that the District's funds are fully secured, and report periodically to the Investment Officer and the Board regarding the Collateral.

D. The District's funds deposited in any Texas financial institution, and to the extent they are not insured, may be secured in any manner authorized by law for the District as such law is currently written or as amended in the future. The following are the securities that may be used as Collateral:

1. Obligations of the U.S. or its agencies and instrumentalities;
2. Direct obligations of the State of Texas or its agencies and instrumentalities;

3. Collateralized mortgage obligations directly issued by a federal agency or instrumentality or the U.S., the underlying security for which is guaranteed by an agency or instrumentality of the U.S.;
4. Other obligations, the principal and interest of which are unconditionally guaranteed or insured by or backed by the full faith and credit of the U.S. or the State of Texas or their respective agencies and instrumentalities;
5. Obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent.
6. Certificates of deposit issued by a depository institution that has its main office or a branch office in Texas guaranteed by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund or its successor that are secured by the obligations in which the District may invest under the Investment Act.
7. Certificates of Deposit (Out-of-State) issued by one or more federally insured depository institutions, wherever located – but arranged through a depository institution that has its main office or a branch office in Texas. (Each certificate of deposit's principal and interest is fully insured by US.)

E. Notwithstanding anything to the contrary provided above, the following may not be used as Collateral and are not authorized as investments for the District under the Investment Act:

1. Obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal;
2. Obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security collateral and bears no interest;
3. Collateralized mortgage obligations that have a final stated maturity date of greater than 10 years; or
4. Collateralized mortgage obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index.

Section 7.02. Prohibited Investments.

Notwithstanding anything to the contrary stated herein, no funds of the District may be invested in the following or in any other type of investment prohibited by the Investment Act or other applicable law:

1. Obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal (IO's);

2. Obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security collateral and bears no interest (PO's);
3. Collateralized mortgage obligations that have a stated final maturity date of greater than 10 years; and
