RE: Notice of Hearing on a Request to the Exception to Lone Star GCD Spacing Rule 3.4(d)

Dear _____:

[Applicant, _____ is requesting to install a water well on their property located at

_____.
Street Address City State Zip Code

In accordance with Rule 3.4 of the Lone Star Groundwater Conservation District's (Lone Star GCD) 2022 Rules and Regulations (amended June 8, 2022), the proposed placement of the well will require an exception to the well spacing requirements. **You are receiving this Notice of Hearing as your property and/or your registered or permitted well is within the applicable spacing distance and/or have property located within the minimum required distance from the proposed well site as determined by Rule 3.2 and/or 3.3.**

This exception to the spacing requirements will be considered and may be granted by the Lone Star GCD Board of Directors at a Permit Hearing on _____ to be held at 655 Conroe Park North Dr, Conroe TX 77303.

At the Permit Hearing on _____], 6:00 pm, the Lone Star GCD may require any interested person that appears or submits information protesting the spacing exception request to provide additional information for the Lone Star GCD Board of Directors to further evaluate the interested person's protest including whether the interested person is within the applicable spacing distance. Per District Rule 13.3.1, if you choose to request a contested hearing on this application, you must do so in writing no later than five (5) days before the date of the public hearing described in this notice. You can email any request for a contested hearing to Lone Star GCD at info@lonestargcd.org.

For more information regarding the above exception to well spacing requirements, the Permit Hearing, or how to contest the application, please contact the Lone Star GCD at (936) 494-3436 or info@lonestargcd.org.

Sincerely,

_____
